## **FURNITURE – TECHNICAL SPECIFICATIONS**

### **Work Surfaces and Desks**

Work surfaces and desks are equipped with a modesty panel, and leveling bolts are provided to overcome floor unevenness. Desk tops are made from 25 mm plain particle board with 1 mm high pressure laminate on top, and 0.6 mm balancing laminate on the underside. The edge banding is done on a high precision German edge bander, to ensure complete sealing of the boards, and the edging options are 2 mm flat PVC, Bull-nose or profile edges. The panel understructure ( sides, modesty panel) is made from 18 mm pre-laminated board and edge banded with 0.8 mm thick PVC edge. Desks can also be supported by metal understructures /brackets /legs. Metal components are epoxy powder coated.

Height : 730 mm

Organic shapes with flat PVC / Bull-nose/ T edge can also be provided.

### **Conference Tables**

Conference tables are equipped with leveling bolts to overcome floor unevenness. Table tops are made from 25 mm plain particle board with 1 mm high pressure laminate on top , and 0.6 mm balancing laminate on the underside. The edge banding is done on a high precision German edge bander, to ensure complete sealing of the boards, and the edging options are 2 mm flat PVC, Bull-nose or profile edges. The panel understructure ( sides, modesty panel) is made from 18 mm pre-laminated board and edge banded with 0.8 mm thick PVC edge. Tables can also be supported by metal understructures / brackets / legs. Metal components are epoxy powder coated.

Height: 730 mm

Organic shapes with flat PVC / Bull-nose/ T edge can also be provided.

### **Mobile Drawer Pedestals**

Mobile Pedestals are available in various combinations: 2 drawers + 1 filing drawer, 2 filing drawers or 4 equal drawers etc. The drawer sides are made of powder coated steel, and are integrated with the slides, which ensure sturdy construction and smooth movement. The drawer fascia, top and carcass are made from 18 mm pre-laminated board, and the bottom and back from 9 mm pre-laminated board. All edge-banding is done with 0.8 mm thick PVC edge. A central locking system is provided, as also lockable castors.

Size:450 mm(W) x 660 mm (H) x 450 mm(D)

### **Storage Cabinets and Credenzas**

In Storage cabinets, the following components: top, bottom, sides and shutters are made from 18 mm pre-laminated board, and the back from 9 mm pre-laminated board. All edge-banding is done with 0.8 mm thick PVC edge. High quality hinges and locks are provided. Credenza is with sliding shutter .

Storage units complement desk sizes and partition heights.

Storage Cabinet sizes:      Width: 800,1000,1200 mm  
   Height: 1050,1250,1350 mm  
   Depth: 400 mm

Credenza sizes:                Width:800,1000,1200 mm  
   Height: 660, 730 mm  
   Depth :400 mm

### **Overhead Storage**

Overhead Storage Units are made from 18 mm pre-laminated board and edge banded with 0.8 mm PVC edge. They can have openable shutters. The cabinets are lockable, and are affixed on the Optima panel with brackets. (Please note that no storage is suitable for wall mounting.)

Sizes:                    Width: 800,1000,1200 mm  
                                 Height: 400 mm  
                                 Depth :400 mm

Note: All the above can be supplied in a veneer finish.
